RECORD OF INTERVIEW

Sir:

In response to the interview conducted on **18 October 2007**, please find a record of the interview below.

Identification of Claims and Prior Art Discussed

Applicant and Examiner discussed Huitema (US Pub. No. 2004/0010683 hereinafter "Huitema") as applied to independent claims 1, 11, 21, 31 and 35 of the instant application as amended in Applicant's response to the Final Office Action dated 4 September 2007, which was submitted on 19 October 2007.

Applicant's Arguments

Applicant and Examiner discussed how embodiments of the present application simultaneously encapsulate cryptographic data in two or more fields

that span two or more network layers, so that the system can use more bits of cryptographic data than are available in a single network address. Furthermore, Applicant and Examiner discussed Applicant's arguments as set forth in Applicant's response to the Final Office Action dated 4 September 2007, and Applicant identified support for corresponding amendments in the specification and figures of the present application.

Outcome of Interview

Examiner indicated to Applicant that the claims as amended would overcome the prior art, and that further search and consideration would be required.

Respectfully submitted,

By /Anthony P. Jones/
